

Create list checkbox in angularjs

```
<label ng-repeat="cls in classlist" class="col-sm-1">
    <input type="checkbox"
        value="{{cls}}"
        ng-checked="selection.indexOf(cls) > -1"
        ng-click="toggleClassSelection(cls)"> {{cls.name}}
</label>
```

```
$scope.facilitylist = data;
```

```
$scope.selection = [];
$scope.toggleClassSelection = function toggleClassSelection(cls) {
    var idx = $scope.selection.indexOf(cls);

    // is currently selected
    if (idx > -1) {
        $scope.selection.splice(idx, 1);
    }

    // is newly selected
    else {
        $scope.selection.push(cls);
    }
};
```
